# **Stewardship Endowment Sample**

Worksheet to be used to calculate the Costs of Stewardship of a Conservation Easement (CE) and the size of the Endowment needed to Support it

| A. Assumptions 1. Staff and Overhead Costs   |                            |                       |   |
|--|----------------------------|-----------------------|---|
| Annual Salary  |                            | \$                    | 39,000                                  |
| ,  |                            | Φ                     |   |
| Hours worked per year (52 wks x 40 hours/wk x 8 hrs/da   | y)                         | ¢                     | 2080                                    |
| Salary per hour (annual salary/hours worked per year)  |                            | \$                    | 18.75                                   |
| Overhead/hour (benefits, rent, etc)  | To do L Use and a Do do    | \$                    | 4.50                                    |
|  | Total Hourly Rate          | \$                    | 23.25                                   |
| 2. Travel Costs for a Site Visit   |                            | •                     | 0.005                                   |
| Reimbursement per mile   |                            | \$                    | 0.325                                   |
| Avg. miles for a round trip  |                            |                       | 6                                       |
| Avg. Vehicular speed   |                            |                       | 25                                      |
| Staff time   |                            | \$                    | 5.58                                    |
| Vehicle cost   |                            | \$                    | 1.95                                    |
|  | Total trip cost            | \$                    | 7.53                                    |
| 3. Monitoring Costs  |                            |                       |   |
| Hard Costs   |                            |                       |   |
| Camera/Photomonitoring/Film development  |                            | \$                    | 10.00                                   |
| Cost of Annual Supplies  |                            | \$                    | 25.00                                   |
| Avg. Long Distance telephone calls   |                            | \$<br>\$<br><b>\$</b> | 10.00                                   |
|  | Total                      | \$                    | 45.00                                   |
| Staff time for monitoring  |                            |                       |   |
| Avg. pre-monitoring time (hours)   |                            |                       | 2                                       |
| Avg. monitoring time (hours)   |                            |                       | 4                                       |
| Avg. post-monitoring time/record keeping (ho   | urs)                       |                       | 2                                       |
|  |                            |                       | -                                       |

| 7. Endowment Assumptions  |                 |            |
|---|-----------------|------------|
| Avg 30 year Treasury Bond rate of return  |                 | 8.51%      |
| Avg Inflation rate  |                 | 4.69%      |
| Therefore the Treasury Bond rate less the Inflation rate is:  |                 | 3.82%      |
| B. Annual Expenses  |                 |            |
| The following expenses add up to the annual costs of monitoring an easement Refer to Sections A and B above |                 |            |
| 1. Annual Monitoring Expenses   |                 |            |
| Pre-monitoring staff costs: hourly staff rate x staff time needed   | \$              | 46.50      |
| Monitoring staff costs: hourly staff rate x staff time needed   | \$              | 93.00      |
| Post-monitoring staff costs: hourly staff rate x staff time needed  | \$              | 46.50      |
| Monitoring hard costs   | \$              | 45.00      |
| Travel costs for each site visit (See Formula #2 above)   | \$              | 7.53       |
| Total Annual Monitoring Expense:  | \$              | 238.53     |
| 2. Annual Landowner Relations Costs   |                 |            |
| Costs of staff time: hourly staff rate x hours needed   | \$              | 46.50      |
| Costs of supplies   | <u>\$</u><br>\$ | 10.00      |
| Total Landowner relations costs:  | \$              | 56.50      |
| 3. Per year cost of Exercise of Reserved Rights   |                 |            |
| Staff Costs: hourly staff rate x hours needed   | \$              | 232.50     |
| Travel Costs for each site visit  | \$              | 15.06      |
| Costs per exercise of reserved rights every 20 years  | \$              | 247.56     |
| x percentage likelihood of right being exercised within 20 years  |                 | <u>5%</u>  |
| Total per year cost:  | \$              | 12.38      |
| 4. Per year Cost of Negotiations Over Violations  |                 |            |
| Staff Costs: hourly staff rate x hours needed   | \$              | 465.00     |
| Travel Costs for each site visit  | \$              | 30.12      |
| Cost of one negotiation over violations every 20 years:   | \$              | 495.12     |
| x percentage likelihood of negotaitions within 20 years   |                 | <u>25%</u> |
| Total per year costs of negotiations:   | \$              | 123.78     |
| Total Annual Expenses:  | \$              | 431.19     |

## **C. Endowment Needed to Fund Annual Expenses**

The following calculation gives the size of the endowment necessary to spin off enough interest to pay for the annual monitoring costs and reinvest sufficient monies so the endowment will grow sufficiently to compensate for inflation.

| Total Annual Costs (See Above)                                   | \$431.19     |
|--|--------------|
| divided by the difference between the Treasury Bond Rate and the |              |
| interest rate  | <u>3.82%</u> |
| Total Stewardship Endowment Needed:                              | \$11,287.64  |

## **D. Legal Defense Fund**

This Fund is a voluntary Fund that helps the Medina County SWCD ensure protection of the conservation values granted in the said conservation easement. This Fund is kept separate from the Stewardship Endowment and is designed to accrue interest in the event it is needed to defend the easement.

| Suggested Legal Defense Fund Donation: | \$<br>5,000.00 |
|--|----------------|
|  |                |

### E. Program Costs

These funds are requested to cover staff and volunteer hours associated with general program development, maintenance, and administration.

| Staff Hours (20 hours x hourly rate)    | \$<br>465.00 |
|---|--------------|
| Volunteer hours (10 hours x \$10.00/hr) | \$<br>100.00 |
| Total Program Costs:                    | \$<br>565.00 |

#### **F. Easement Review Costs**

These funds are requested to cover staff hours associated with the review and research of proposed conservation easements on a case-by-case basis.

| Staff Hours (25 hours x hourly rate)       | \$             | 581.25  |
|--|----------------|---------|
| G. Total Funds Requested From the Grantor: | <b>\$ 17</b> , | ,433.89 |

(Easement Review Costs + Program Costs + Legal Defense Fund + Endowment Fund)
